

Components

Castings

Our range of castings products includes:

1. Vertical Turbine Pump castings (Discharge Head, Bowls, Impellers, etc.)
2. Centrifugal Pump castings
3. C.I. Spiders / Bronze Spiders

Foundry Infrastructure

1. Cupola furnaces
2. Sand mixtures
3. Automatic core shooting machines
4. Automatic moulding machines
5. Shot blast machines
6. Heavy compressors

Machine Shop Infrastructure

1. Medium frequency electric furnaces
2. Universal milling machines
3. Radial drills
4. Lathe machines
5. Surface machines
6. Boring machines
7. CNC machines

Quality Control

All our quality control procedures are in accordance with national as well as international quality standards. We make continuous efforts to improve technology and equipment to provide products of the highest quality. Our team of quality experts monitors every stage of the manufacturing process—from the procurement of raw material to the delivery of the finished products.
